TUTTLE, GEORGE MONTGOMERY, 1856-1912.

George Montgomery Tuttle casebooks, 1895-1909.

.66 cubic feet (2 boxes)

#M-0185

BIOGRAPHICAL NOTE: George Montgomery Tuttle was born Oct. 2, 1856 in Rochester, N.Y., the son of the Rev. James Harvey Tuttle, a Unitarian minister. He was graduated from Yale in 1877 and received his M.D. from the College of Physicians & Surgeons (P&S) in 1880. He was Professor of Gynecology at P&S from 1885 to 1903 and Attending Gynecologist at Roosevelt Hospital from 1888 until his death, Oct. 29, 1912.

SCOPE AND CONTENT: The 23 volumes here date from May 1895 to May 1909 and deal solely with gynecological cases. Each case usually includes age, residence, marital status, childbearing and menstruation information, symptoms, diagnosis, treatment, and result. In addition, there are often letters from referring physicians and sketches of the visible symptoms. Most of the cases seem to have been referred to Tuttle from the patients' general practitioner. In 1895, Tuttle maintained his office at 49 West 30th St. in Manhattan.

ACCESS: Because the papers include Confidential Health Information (CHI) as defined by Columbia University policies governing data security and privacy, access is allowed only under the terms of Archives and Special Collections' [Access Policy to Records Containing Confidential Health Information](#).

LANGUAGE: English.

PROVENANCE: Unknown. Acquired before 1997.
